## SECTION C DESCRIPTIONS AND SPECIFICATIONS

### STATEMENT OF WORK (PERFORMANCE BASED)

TITLE: NAVAL RESERVE LOGISTICS AND MAINTENANCE LIFE CYCLE SUPPORT

#### 1.0 SCOPE

The contractor shall furnish personnel, services, capabilities, materials, equipment, and facilities required to complete the defined tasks below. Product Area Directorates related to Ships and Ship Systems and Surface Warfare Logistics and Maintenance are supported by this Statement of Work. Tasks will encompass those efforts necessary to ensure developments in logistics and maintenance of NAVRES weapon systems are compatible and consistent with objectives of these Product Area Directorates.

#### 1.1 BACKGROUND

NSWC Carderock Division historically has supported logistic and maintenance developments for weapon systems being introduced to the NAVRES inventory. Technical support and analysis of introductory systems, evaluation of impacts related to proposed modifications and assessment of related operational concepts have been performed to ensure success in warfighting scenarios. Investigation of maintenance engineering concepts, tools and support equipment, spares and inventory management, configuration management, shipping and transportation, and analysis of associated facilities have been accomplished to ensure compatibility with ship and ship systems. Included in these efforts have been the development of techniques, tools and analysis processes necessary to institutionalize Reliability procedures across the Warfare Centers. Training systems development, both classroom and Computer Based, have been accomplished using traditional and interactive training media.

#### 2.0 GOVERNMENT FURNISHED OFFICE SPACE

The majority of tasking will be performed on-site at the Government facilities within the Naval Reserve Community. Approximately 1/3 of the total time will be spent at each of the following sites and the statement of work applies to all sites:

NAWCAD, PATUXENT RIVER, MD

CBT, HINTON, WV

Commander Naval Air Reserve Force, New Orleans, LA

Occasional effort may be required at other NAVRES communities.

#### 3.0 REQUIREMENTS

Provide Contractor Monthly Progress and Status Report of work accomplished.

Perform asset tracking and Inventory Management for assigned weapon systems.

Develop Force Deployment Planning and Execution Documentation.

Develop Logistic Management Programs for Fielding new Equipment.

Manage Equipment and Weapon System Modifications, Engineering Change Proposals and Maintain Configuration Control.

----------------------------------	----------------------------	------------------	-------

Evaluate Logistics Provisioning Requirements based on assessment of projected operational requirements.

Review historical demand/usage data.

Analyze and assess the applicability of the current database for determining spares allowances.

Analyze and assess weapon system readiness data.

Recommend resolution to cited support problems/deficiencies that impact operational readiness.

Perform analyses in support of various configuration and financial management programs.

Support Status Accounting System (SAS) and financial systems such as Electronic Cost Reporting & Financial Tracking System (eCRAFT).

Organize data from a wide variety of management and budget documents and various system databases.

Monitor transactions and report on budget execution.

Develop methods and procedures to automate office processes.

Provide engineering, technical, and logistics support for conversions, alterations, modifications, installation, and removal of installed equipment.

Perform acceptance testing and configuration management updates.

Assess Engineering processes and Integrated Logistics Support (ILS) requirements.

Develop and provide system engineering tools and processes that support the decision-making process.

Develop Program Management Planning information and analysis information to assess logistical and cost impacts on the successful production, implementation, operation, and maintenance of Navy systems.

Analyze requirements necessary to support the Navy in defining requirements, schedules, and resources for the complex transition and implementation of logistics support efforts in deployment of Naval systems.

Provide logistics planning, analysis, and support necessary for designing, developing courseware, and implementing training for individual Selective Reservists (SELRES).

Coordinate and plan the activation and deactivation of operational units and weapon systems.

Provide management, planning, engineering, technical, and logistic support related to Base Realignment and Closure (BRAC) activities.

Evaluate the adequacy of existing technical documentation.

Prepare and present technical briefings concerning the introduction of new technologies in conjunction with active acquisition upgrade/modernization programs.

Develop installation studies and analyses with recommendations to improve upon overall operational effectiveness and efficiency.

Formulate, develop, and produce required logistics requirements/ planning documentation.

Provide consultation in the areas related to various aspects of logistic support, such as: maintenance planning, level

of repair analysis, technical documentation, test and evaluation, component pilot repair/rework, supply support, support and test equipment; logistic support analysis; facilities, maintainability and availability, and reliability.

Ensure currency of the “Handbook of Reliability Prediction Procedures for Mechanical Equipment” and supporting software program with provisions for free web site downloading to Government and industry users.

Support the development of higher level safety and OSHA directives, quality assurance precepts, conduction of audits, statistical analysis of quality data and application of corrective actions.

Develop environmental impact statements and studies, as well as identifying potential environmental consequences and identification of appropriate mitigation measures.

Develop a training support system for application to Naval Reserve training issues.

Conduct applied research on computer-based training (CBT) in the reserve environment.

Develop training system support for traditional and interactive training media.

Perform Interactive electronic technical manual (IETM) development, installation, and support using LAN, WAN, intranet, and internet.

Conduct training device operation, maintenance, modification, relocation, and support.

Create a personnel and equipment database to track personnel readiness, equipment availability, and other logistics support issues.

Conduct assessments and provide recommendations for exploitation of web and related information technologies, and the management and delivery of computer-based maintenance training.

Conduct Test and Evaluation (T&E) of installed and candidate or prototyped systems that are being considered for use by the Government.

#### 4.0 GOVERNMENT FURNISHED INFORMATION

The Government will provide the Contractor with access to any required weapon system program engineering, training and logistic support documentation, including maintenance publications, engineering drawings, and Instruction Manuals, inclusive of Illustrated Parts Breakdown manuals.

#### 5.0 DELIVERABLES

All Data deliveries shall be in accordance with the schedule as specified in the attached Contract Data Requirements List (CDRL), DD Form 1423.

#### 6.0 PERIOD OF PERFORMANCE

The period of performance shall be from the date of award through 30 March 2008.

#### 7.0 SECURITY

The performance of this task order will require the contractor to have access to classified material up to the level of Top Secret.

#### 8.0 DISTRIBUTION STATEMENT

Documentation generated under this order shall have the following Distribution Limitation Statement and Destruction Notice affixed to the front cover and title page (if any):

## SECTION E INSPECTION AND ACCEPTANCE

Inspection and Acceptance shall be performed at Destination by the Government.

Task Order Performance Standard:

Monthly status reports submitted to the Task Order Manager under subject Task Order shall identify the work that had been performed during the month, deliverables that had been submitted, and the name of the Government representative that had received the deliverable. The Task Order Manager will be required on a monthly basis to rate the quality of deliverables in terms of timeliness and quality on a rating scale of one (1) to five (5). The rating scale is specified in the table and defined below:

Rating Number	Rating Description
5	Exceptional Exceeds many standards of performance
4	Very Good Exceeds some standards of performance
3	Satisfactory Fully meets standards of performance
2	Marginal Fails to meet some standards of performance
1	Unsatisfactory Fails to meet many standards of performance

Rating Definitions:

**Exceptional.** Performance meets contractual requirements and exceeds many to the Government's benefit. The contractual performance of the element or sub-element being assessed was accomplished with few minor problems for which corrective actions taken by the contractor was highly effective.

**Note:** To justify an Exceptional rating, multiple significant events in each category must be identified and must state how it was a benefit to the GOVERNMENT. However, a singular benefit could be of such magnitude that it alone constitutes an Exceptional rating.

**Very Good.** Performance meets contractual requirements and exceeds some to the Government's benefit. The contractual performance of the element or sub-element being assessed was accomplished with some minor problems for which corrective actions taken by the contractor was effective.

**Note:** To justify a Very Good rating, a significant event in each category must be identified and must state how it was a benefit to the GOVERNMENT.

**Satisfactory.** Performance meets contractual requirements. The contractual performance of the element or sub-element contains some minor problems for which corrective actions taken by the contractor appear or were satisfactory.

**Note:** To justify a Satisfactory rating, there should have been only minor problems, or major problems the contractor recovered from without impact to the contract.

**Marginal.** Performance does not meet some contractual requirements. The contractual performance of the element or sub-element being assessed reflects a serious problem for which the contractor has not yet identified corrective actions. The contractor's proposed actions appear only marginally effective or were not fully implemented.

**Note:** To justify Marginal performance, a significant event in each category that the contractor had trouble overcoming must be identified and must state how it impacted the GOVERNMENT. A Marginal rating should be supported by referencing the management tool that notified the contractor of the contractual deficiency (e.g. Management, Quality, Safety, or Deficiency Report or letter).

**Unsatisfactory.** Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance of the element or sub-element contains a serious problem(s) for which the

CONTRACT NO. N00178-04-D-4148	DELIVERY ORDER NO. 0003	PAGE 16 of 35	FINAL
----------------------------------	----------------------------	------------------	-------

contractor's corrective actions appear or were ineffective.

Note: To justify an Unsatisfactory rating, identify multiple significant events in each category that the contractor had trouble overcoming and state how it impacted the GOVERNMENT. However, a singular problem could be of such serious magnitude that it alone constitutes an unsatisfactory rating. An Unsatisfactory rating should be supported by referencing the management tools used to notify the contractor of the contractual deficiencies (e.g., Management, Quality, Safety, or Deficiency Reports, or letters).

Objective: The objective of this Task Order statement of work is to provide Naval Reserve Logistics and Maintenance Life Cycle Support.

Measures of Effectiveness: The measures of effectiveness will apply to overall Task Order management. Typical measures to be applied include: quality performance, technical performance, technical expertise, cost performance, cost containment or reduction, timeliness, innovation, consistency, and management effectiveness.

Standards: The standards for the Task Order are derived from the measures of effectiveness and are tailored to maximize Task Order effectiveness.

The annual rating assigned for the effort performed under this Task Order will be a key determining factor as to whether the options will be exercised. If an "UNSATISFACTORY" rating is assigned during any rating period, the Government will not exercise the follow-on option(s), and will the contractor will not be entitled to any future cost or fees it might have earned had the option(s) been exercised. This does not affect the Government's unfettered discretion concerning whether it will or will not exercise the option(s) for other reasons.

NAVSEA 5252.232-9104 ALLOTMENT OF FUNDS (MAY 1993)

(a) This contract is incrementally funded with respect to both cost and fee. The amount(s) presently available and allotted to this contract for payment of fee for

incrementally funded contract line item number/contract subline item number (CLIN/SLIN), subject to the clause entitled "FIXED FEE" (FAR 52.216-8) or "INCENTIVE FEE" (FAR 52.216-10), as appropriate, is specified below. The amount

(s) presently available and allotted to this contract for payment of cost for incrementally funded CLINs/SLINs is set forth below. As provided in the clause of

this contract entitled "LIMITATION OF FUNDS" (FAR 52.232-22), the CLINs/SLINs covered thereby, and the period of performance for which it is estimated the allotted amount(s) will cover are as follows:

(b) The parties contemplate that the Government will allot additional amounts to this contract from time to time for the incrementally funded CLINs/SLINs by unilateral contract modification, and any such modification shall state separately the amount(s) allotted for cost, the amount(s) allotted for fee, the CLINs/SLINs covered thereby, and the period of performance which the amount(s) are expected to cover.

(c) CLINs/SLINs 0001AB through 0001JE and 0003AB through 0003GQ are fully funded and performance under these CLINs/SLINs is subject to the clause of this contract entitled "LIMITATION OF COST" (FAR 52.232- 20) or "LIMITATION OF COST (FACILITIES)" (FAR 52.232-21), as applicable.

(d) The Contractor shall segregate costs for the performance of incrementally funded CLINs/SLINs from the costs of performance of fully funded CLINs/SLINs.

NAVSEA 5252.216-9122 LEVEL OF EFFORT (JUL 1986)

(a) The Contractor agrees to provide the total level of effort specified in the next sentence in performance of the work described in Sections B and C of this task order. The total level of effort for the performance of this task order (including options) shall be 373,680 total man-hours of direct labor (based upon the Government estimate of 124,560 hr/manyear)\*, including subcontractor direct labor for those subcontractors specifically identified in the Contractor's proposal as having hours included in the proposed level of effort.

(b) Of the total man-hours of direct labor set forth above, it is estimated that

CONTRACT NO. N00178-04-D-4148	DELIVERY ORDER NO. 0003	PAGE 21 of 35	FINAL
----------------------------------	----------------------------	------------------	-------

(Offeror to fill-in) \_\_0\_\_ man-hours are uncompensated effort.

Uncompensated effort is defined as hours provided by personnel in excess of 40 hours per week without additional compensation for such excess work. All other effort is defined as compensated effort. If no effort is indicated in the first sentence of this paragraph, uncompensated effort performed by the Contractor shall not be counted in fulfillment of the level of effort obligations under this contract.

(c) Effort performed in fulfilling the total level of effort obligations specified above shall only include effort performed in direct support of this task order and shall not include time and effort expended on such things as (local travel to and from an employee's usual work location), uncompensated effort while on travel status, truncated lunch periods, work (actual or inferred) at an employee's residence or other non-work locations, or other time and effort which does not have a specific and direct contribution to the tasks described in Sections B and C.

(d) The level of effort for this task order shall be expended at an average rate of approximately 2,395 hours per week. It is understood and agreed that the rate of man-hours per month may fluctuate in pursuit of the technical objective, provided such fluctuation does not result in the use of the total man-hours of effort prior to the expiration of the term hereof, except as provided in the following paragraph.

(e) If, during the term hereof, the Contractor finds it necessary to accelerate the expenditure of direct labor to such an extent that the total man hours of effort specified above would be used prior to the expiration of the term, the Contractor shall notify the Contracting Officer in writing setting forth the acceleration required, the probable benefits which would result, and an offer to undertake the acceleration at no increase in the estimated cost or fee together

CONTRACT NO. N00178-04-D-4148	DELIVERY ORDER NO. 0003	PAGE 22 of 35	FINAL

with an offer, setting forth a proposed level of effort, cost breakdown, and proposed fee, for continuation of the work until expiration of the term hereof.

The offer shall provide that the work proposed will be subject to the terms and conditions of this contract and any additions or changes required by then current law, regulations, or directives, and that the offer, with a written notice of acceptance by the Contracting Officer, shall constitute a binding contract. The Contractor shall not accelerate any effort until receipt of such written approval by the Contracting Officer. Any agreement to accelerate will be formalized by contract modification.

(f) The Contracting Officer may, by written order, direct the Contractor to accelerate the expenditure of direct labor such that the total man hours of effort specified in paragraph (a) above would be used prior to the expiration of the term. This order shall specify the acceleration required and the resulting revised term. The Contractor shall acknowledge this order within five days of receipt.

(g) If the total level of effort specified in paragraph (a) above is not provided by the Contractor during the period of this contract, the Contracting Officer, at its sole discretion, shall either (i) reduce the fee of this contract as follows:

Fee Reduction = Fee (Required LOE minus Expended LOE divided by Required LOE)

or (ii) subject to the provisions of the clause of this contract entitled "LIMITATION OF COST" (FAR 52.232-20) or "LIMITATION OF COST (FACILITIES)" (FAR 52.232-21), as applicable, require the Contractor to continue to perform the work until the total number of man hours of direct labor specified in paragraph (a) above shall have been expended, at no increase in the fee of this contract.

(h) The Contractor shall provide and maintain an accounting system, acceptable to the Administrative Contracting Officer and the Defense Contract Audit Agency (DCAA), which collects costs incurred and effort (compensated and uncompensated, if any) provided in fulfillment of the level of effort obligations of this

CONTRACT NO. N00178-04-D-4148	DELIVERY ORDER NO. 0003	PAGE 23 of 35	FINAL
----------------------------------	----------------------------	------------------	-------

contract. The Contractor shall indicate on each invoice the total level of effort claimed during the period covered by the invoice, separately identifying compensated effort and uncompensated effort, if any.

(i) Within 45 days after completion of the work under each separately identified period of performance hereunder, the Contractor shall submit the following information in writing to the Contracting Officer with copies to the cognizant Contract Administration Office and to the DCAA office to which vouchers are submitted: (1) the total number of man hours of direct labor expended during the applicable period; (2) a breakdown of this total showing the number of man hours expended in each direct labor classification and associated direct and indirect costs; (3) a breakdown of other costs incurred; and (4) the Contractor's estimate of the total allowable cost incurred under the contract for the period. Within 45 days after completion of the work under the contract, the Contractor shall submit, in addition, in the case of a cost underrun; (5) the amount by which the estimated cost of this contract may be reduced to recover excess funds and, in the case of an underrun in hours specified as the total level of effort; and (6) a calculation of the appropriate fee reduction in accordance with this clause. All submissions shall include subcontractor information.

\*NOTE: A complete breakdown of labor and manning levels based upon the contractor's approved manyear will be incorporated at time of award.

SEA 5252.242-9115 TECHNICAL INSTRUCTIONS (APR 1999)

(a) Performance of the work hereunder may be subject to written technical instructions signed by the Contracting Officer specified in Section G of this task order. As used herein, technical instructions are defined to include the following:

(1) Directions to the Contractor which suggest pursuit of certain lines of inquiry, shift work emphasis, fill in details or otherwise serve to accomplish the contractual statement of work.

CONTRACT NO. N00178-04-D-4148	DELIVERY ORDER NO. 0003	PAGE 24 of 35	FINAL
----------------------------------	----------------------------	------------------	-------

(2) Guidelines to the Contractor which assist in the interpretation of drawings, specifications or technical portions of work description.

(b) Technical instructions must be within the general scope of work stated in the contract. Technical instructions may not be used to: (1) assign additional work under the contract; (2) direct a change as defined in the "CHANGES" clause of this contract; (3) increase or decrease the contract price or estimated contract amount (including fee), as applicable, the level of effort, or the time required for contract performance; or (4) change any of the terms, conditions or specifications of the contract.

(c) If, in the opinion of the Contractor, any technical instruction calls for effort outside the scope of the task order or is inconsistent with this requirement, the Contractor shall notify the Contracting Officer in writing within ten (10) working days after the receipt of any such instruction. The Contractor shall not proceed with the work affected by the technical instruction unless and until the Contractor is notified by the Contracting Officer that the technical instruction is within the scope of this contract.

(d) Nothing in the foregoing paragraph shall be construed to excuse the Contractor from performing that portion of the contractual work statement which is not affected by the disputed technical instruction.
